UNIVERSAL FULLY POWERED STACKERS

The LiftMate LES/LESS Series offers several models of battery powered stackers which are lightweight and competitively priced yet powerful and reliable. Both drive and lift movement are operated by controls on an ergonomically designed handle. The LES/LESS range has been designed specifically for small warehouses and factories.

All stackers in this range are fitted with 2 powerful 120Ah batteries and on board charger which can be connected to standard mains 230V/13A 3-pin socket. These provide approximately 3 hours of operational charge.

LES 10.16 & LES 10.30 Fully Powered Stackers

LES models have fixed width wrapover forks and are designed for handling Euro pallets and other open bottom pallets and cages.

- Battery powered lift and drive
- Light and versatile; compact and reliable
- Suitable for small factories and warehouses
- Wrapover forks
- On board charger
- Turning radius: 1400mm
- Chargeable from standard 230V/13A 3-pin socket
- CE certified
- Full 12 months warranty
